Merchant Services raises Disaster Relief funds for Japanese Earthquake and Pacific Tsunami Victims

Merchant Services recently created a charitable giving program that included a corporate donation, employee giving and corporate matching – all aimed at gathering funds for Japanese disaster relief. All together Merchant Services donated more than \$3,000 to the American Red Cross to help those affected by the earthquake in Japan and the Pacific Tsunami that followed.

“In the wake of these devastating events, we understand the urgent need for financial contributions to disaster relief organizations such as the Red Cross. Once the decision was made to put together a program, we knew we needed to act quickly and our team jumped in to make it happen,” shared Merchant Services Vice President of Operations Nathan Jurczyk, adding “we are proud of the outpouring of support from our employees to help those in need.”

Merchant Services has a long-standing commitment to giving back to the community and since their inception in 1995 has partnered with multiple local, national and international organizations to meet their vision of continuously acting in a socially responsible manner.
