Merchant Services Partners with ROAM Data to provide ROAMpay – A Service that Turns Cell Phones into Mobile POS Devices

Merchant Services announced that it will now offer ROAMpay as the latest component in its array of business e-commerce solutions.

ROAMpay turns cell phones into Mobile POS devices, allowing businesses to take their transactions on the road. Perfect for mobile vendors from home repair technicians to taxi and shuttle services to contractors and market vendors, ROAMpay is designed for quick, easy, low cost, secure mobile processing.

Roampay provides a wide variety of benefits to merchants, including quick activation, the ability to integrate with all major cell phone carriers and major cell phone models, provides automatic software updates, and meets the industry's current data security compliance standards.

About Merchant Services

Founded in 1995, Merchant Services is a leading provider of e-commerce solutions to businesses throughout the United States. Recognized in 2009 by Inc. Magazine as one of *The 5000 Fastest Growing Privately-Held Companies in the U.S.*, Merchant Services provides sound, reliable and cost-effective bankcard and e-commerce support to tens of thousands of business partners nationwide.

About ROAM Data

Headquartered in Boston, MA, ROAM Data makes mobile commerce easy by delivering secure, affordable and scalable commerce applications on hundreds of mobile phone models. With ROAM's patented platform, application updates occur 20 times faster when compared to device-specific static application approaches

and secure transactions are done through ROAM's PCI-certified payment gateway. For more information visit www.roamdata.com.
